

YEPP Joint Statement on the conflict between Israel and Hamas

Adopted at the YEPP Council Meeting in Skopje (23/09/2023)

On October 7, 2023, the international community witnessed a shocking and unprecedented attack targeting Israel, orchestrated by the terrorist organisation, Hamas. This meticulously planned assault involved the launching of thousands of rockets and the infiltration of terrorists into Israeli territory with the sole aim of attacking Israeli civilians.

This reprehensible act resulted in a devastating toll, with over 1,400 lives lost and more than 3,400 people injured. Additionally, more than 230 individuals were taken hostage in Gaza, and many others were reported as missing. The ensuing conflict between Israel and Hamas led to significant casualties on both sides and widespread destruction in Gaza.

The Youth of the European People's Party (YEPP) unites in solidarity to denounce these heinous acts and express our collective commitment to a world that prioritises peace, security, and the sanctity of human life.
